

A Company of Girls is committed to offering free or reduced cost programming to ALL of our families. The associated costs for participation in our core programming averages approximately \$2500 per girl/per school year. To make this program available for your girls, we seek funding through grants, businesses, and individual support, as well as holding various fundraisers and special events. We also ask our families to determine if they are able to make a financial contribution.

***Please know that no one will be turned away based on what they can or cannot contribute.***

Approximate monthly programming cost (over 8 months)
